No vehicle class designations on door number panels will be used.

The use of Pace Notes, marked up Course Notes or marked up Road Books during competition is specifically permitted.

Reconnaissance is optional. However, it is recommended that competitors familiarize themselves with the course in the interest of safety.

Each start and each finish of a special stage is marked in the Road Book by a mileage, an unmistakable landmark and by GPS coordinates.

The starts and the flying finishes of Special Stages will be identified by standard FIA signboards.

Competitors are reminded that all stage roads are open to other vehicles during reconnaissance in both directions of travel. Marshals have no power to police these vehicles. Competitors should not therefore expect Marshals to take any action against these vehicles even if these vehicles would be in violation of traffic laws. Such powers remain only with law enforcement officers and Ten Mile River Reservation Rangers who will be present.

9.8 Reconnaissance by unauthorized persons

After the date of publication of these Supplementary Regulations, no competitors or persons in any way associated with the entrant may travel over the special stage roads listed in Appendix 1: Itinerary and Appendix 2: Reconnaissance Schedule outside the times listed in the Reconnaissance Schedule unless they are traveling in an official capacity with the permission of the Clerk of the Course. Under the Super Rally Format, any crew that has retired from Day 1 and/or Day 2 may restart the next Day. The restart order will be at the sole discretion of the Event Stewards.

The crew will be penalized with a 10-minute penalty for the first missed stage. This penalty may be applied only one time per event.

The crew will be penalized with a 5-minute penalty added to the fastest time in the competitor's class for each missed stage that shall include special stage or Super Special Stage on which the crew retired. Should there be no finishers in the competitor's class, the next lower class's fastest time will be used. Should there be no lower class, the fastest time from the next higher class will be used.

Should retirement occur after the last special stage or Super Special Stage, the crew will nonetheless be deemed to miss that last special stage or Super Special Stage.

Any crew that retired from the last Day will be classified after the application of a 5-minute time penalty added to the fastest time in the competitor's class for each missed stage

which shall include the special stage or Super Special Stage on which the crew retired. However, in order to be classified, their car must be present in the finish Parc Ferme until the publication of the provisional final results.

Cars may be removed from Parc Ferme into the Service Park for repairs. However, crews must present their cars in the Parc Ferme at least one hour before the time of the start of the next Day. The Clerk of the Course may require that the vehicle be scrutineered before starting the next Day.

All other applicable penalties that have been accrued will be assessed per event regulations.
