4.3 Competitor Auto Insurance Coverage

Each entrant is required to present proof of insurance coverage limits, such as the declaration page of the insurance policy valid in the United States of America (an insurance card only does not constitute such proof), at the time of Registration. 4.4 Period of Insurance Coverage

All insurance coverages will come into effect at the opening of Rally HQ on Thursday, September 9, 2010 and will end at the close of the Rally HQ on Saturday, September 11, 2010 or at the moment of competitor retirement, exclusion or disqualification.

At Registration, competitors will receive from the organizer white vinyl door number panels 20 inches high and 20 inches wide to be placed on both front doors of the competition vehicle.

No vehicle class designations on door number panels will be used.

Cars must be presented at scrutineering with all start numbers and compulsory decals firmly affixed to the required places on the vehicle.

All names and logos of motorsport sanctioning bodies other than Rally New York, Ltd. on competition and service vehicles must be removed or neatly covered by a color-coded adhesive tape.

Competitors may simply preview the course or they may prepare their own Pace Notes, or they may mark up the Course Notes supplied by the organizer or their Road Books. The use of Pace Notes, marked up Course Notes or marked up Road Books during competition is specifically permitted.

Reconnaissance is optional. However, it is recommended that competitors familiarize themselves with the course in the interest of safety.

Each start and each finish of a special stage is marked in the Road Book by a mileage, an unmistakable landmark and by GPS coordinates.

Each start and each flying finish of a special stage will be marked with standard FIA sign boards.

Competitors are advised to transfer into their Notes from the Road Book the locations of the radio points along the special stages.

9.5 Reconnaissance Cars

Reconnaissance will be conducted in standard road cars or in competition cars registered for the event. Event start numbers may be displayed on the cars during reconnaissance.

Vehicles larger than a small van or a small-size pickup truck are not allowed.

Competitors must register Reconnaissance vehicles in the same manner as the competition vehicles and service vehicles.

During Reconnaissance, competitors may travel over a special stage road only in the direction indicated in the Reconnaissance Schedule.

The starts and the flying finishes of Special Stages will be identified by standard FIA signboards.

Competitors are reminded that all stage roads are open to other vehicles during reconnaissance in both directions of travel. Marshals have no power to police these vehicles. Competitors should not therefore expect Marshals to take any action against these vehicles even if these vehicles would be in violation of traffic laws. Such powers remain only with law enforcement officers and Ten Mile River Reservation Rangers who will be present.

9.8 Reconnaissance by unauthorized persons

After the date of publication of these Supplementary Regulations, no competitors or persons in any way associated with the entrant may travel over the special stage roads listed in Appendix 1: Itinerary and Appendix 2: Reconnaissance Schedule outside the times listed in the Reconnaissance Schedule unless they are traveling in an official capacity with the permission of the Clerk of the Course. This prohibition will continue after the Rally.

In addition, no persons in any way associated with the entrant, other than competitors registered for the event, may travel over the special stage roads listed in the Reconnaissance Schedule during the times stated in the Reconnaissance Schedule.

9.9 Reconnaissance Penalties

Penalty for **each violation** of reconnaissance rules is **10 minutes**.
