4.3 Competitor Auto Insurance Coverage

Each entrant is required to present proof of insurance coverage limits, such as the declaration page of the insurance policy valid in the United States of America (an insurance card only does not constitute such proof), at the time of Registration. Any advertising on the competition vehicle must not interfere with the car's official start number, as this would prevent vehicle recognition by event officials.

5.2 Vehicle Identification

At Registration, competitors will receive from the organizer white vinyl door number panels 20 inches high and 20 inches wide to be placed on both front doors of the competition vehicle.

For this event only, competitors are urged to advise the organizer by e-mail sent to Eurorally@aol.com if they have on the car door number panels in good condition issued to them at any previous Rally New York event and / or whether they have a start number on those door panels they wish to keep for this event.

No vehicle class designations on door number panels will be used.

In addition, the organizer will provide start numbers according to the start list as well as compulsory sponsor, event and championship decals.

Cars must be presented at scrutineering with all start numbers and compulsory decals firmly affixed to the required places on the vehicle.

All names and logos of motorsport sanctioning bodies other than Rally New York, Ltd. on competition and service vehicles must be removed or neatly covered by a color-coded adhesive tape.

6 Tires

Gravel tires built according to the FIA Rally Regulations are authorized without restrictions.

7 Fuel

The use of leaded fuel is prohibited on this Rally.
